

Acknowledgment of Bed Bugs Prior to Lease Up

HOUSING AUTHORITY OF THE CITY OF EASTMAN

Bedbug Control and Prevention Policy

This Statement of Bedbug Control and Prevention Policy is established for the Housing Authority of the City of Eastman, Georgia.

The Purpose of this policy is to establish guidelines for the Eastman Housing Authority staff, applicants and residents for prevention and control of bedbug infestations.

The Authority may not deny tenancy to a potential resident on the basis of the tenant having experienced a prior bedbug infestation, nor will residential preference be given to any applicant and/or tenant based on a response to a question regarding prior exposure to bedbugs. **The Authority may require an inspection of household belongings prior to lease up.**

I do acknowledge I ()have ()have not been exposed to bed bugs and that I also have been advised of the Eastman Housing Authority's Bed Bug Policy. As stated in the policy, prior to lease up, the authority may require an inspection of my household belongings. I also have been advised if there is suspicion of active bed bugs, I will not be authorized to move the infested belongings into the unit and will comply with the safe removal action plan of bed bugs. This must be strictly adhered to prevent enforcement of the lease.
